# Grab the **TOUGHEST** Feel the **RUSH**

Designed to handle loads and shuttle over long distances, the PBV-EA series is the right fit to manage most material handling tasks efficiently and speedily without much delays.

Ranging from 2.0T to 3.0T, the PBV-EA series is capable of not just handling one load, it can also **handle up to TWO loads** at one go with the use of longer forks option that can travel up to a **maximum speed of 12km/hr!**

The PBV-EA is equipped with a standard **foldable platform with full suspension** provide a good sense of comfort while operating on the truck over a span period. The usage of a **standard electric power steering** has further enhanced the overall ride experience that facilitates smooth and effortless control while the **foldable sideguards** provide additional assurance to keep the operator safe at all times!

## ✓ **24/7 Secured**

- Exclusive pin-code entry limits any unauthorized usage of the truck

## ✓ **High Performance AC drive system**

- Smooth travel speed control up to \*12km/hr
- Competitive and powerful rated AC drive motor allows the truck to overcome most terrains with ease
- \*Only applicable to high-performance model PBV20EAH

## ✓ **Quick Battery Change**

- Top access to the battery for easy monitoring of the battery water level
- Optional side battery change system facilitates safer battery change procedures

## ✓ **Vivid Digital Display & Controls**

- Standard LED indicators displays Battery level, On/Off status, Running Hours and Fault Code
- Multifunctional electronic control handle to facilitate quick controls
- Creep speed mode automatically reduce the truck travel speed when the tiller arm is tilted at near neutral position
- Low voltage protection system automatically limit travel speed to indicate immediate charging of the truck when the battery level hits 20% or below

## ✓ **Easy Maintenance and Serviceability**

- Hassel free access to the internal key components for quick inspection, maintenance, and replacement works
- Adjustable forks linkages to ensure smooth lifting of the forks
- Quick plug-in fault diagnostics feature
- IP54 ZAPI AC controller offers better protection against water & dust ingression
- High-quality AMP connectors and durable electrical harnesses

## ✓ **Safe Operating**

- Sideguards and platform limit switches ensure safe operating procedures to be well observed by the operator
- Reverse belly button changes the traveling direction immediately upon contact helps to protect the operator from any imminent impact
- Full electromagnetic brakes with anti-rollback function
- Standard full suspension standing platform for comfortable ride experience
- Low bottom frame design keeps the operator foot out of the undercarriage
